

Dear Watershed Community,

Hope you're enjoying the snow today -- and I hope you're enjoying Pi Day (3/14)!

See [here](#), [here](#), and [here](#) for some fun facts about pi -- including the record for the most memorized digits (70,000!), the number of digits NASA uses in its calculations (16), and the fact that MIT used to mail acceptance letters so they would arrive on Pi Day.

Enjoy!

--Tim

ps. See you in school tomorrow (Friday) for classes in the morning and conferences in the afternoon -- unless you hear from me again about a weather delay!
